关爱老人 养老养生

Caring for the elderly to maintain health

从中医养生的角度或人体与水的疗效层面来看是非常有必要的，老年人不经常泡澡会加快老年人皮肤及肌肉组织的抗衰老能力，也叫着免疫力下降，老年人泡澡对缓解老年人的烦躁及排毒都能有很好的帮助或缓解，坐着泡澡能对老人的放松泡澡及减少泡澡产生的憋气或呼吸难，头晕心闷等安全隐患。常年泡澡可减少老年关键肌肉疼痛，身体保养及康复非常大的帮助。

From the perspective of TCM health or the efficacy level of human body and water, it is very necessary. The elderly often do not take a bath to speed up the anti-aging ability of the skin and muscle tissue of the elderly, also called the immunity, the elderly bath It can help or relieve the irritability and detoxification of the elderly. Sitting in the bath can relax the bath for the elderly and reduce the suffocation or difficulty of breathing, dizziness and palpitations. Year-round bathing can reduce the key muscle pain in the elderly, and the body care and rehabilitation are very helpful.
